Regular monthly meetings are held on the first Tuesday of each month at 7:30 PM local time at the Western Hills Church of Christ, 5064 Sidney Rd. (corner of Sidney & Covedale) in Western Hills, Cincinnati. Visitors are ALWAYS welcome!

**For membership information contact**

Ken Croll N8ASV 9998 Dick Rd. Harrison OH 45030 513=202-1208 [n8asv@arrl.net]

Permission is hereby granted to any amateur radio group to quote or reprint from this publication, provided proper source credit is given.

*The Q-FIVER* is the official newsletter of OH-KY-IN ARS, edited & published monthly by the following amateurs:

Susie Scott N8CGM 6351 Daleview Road 45247 513=385-5201 Editor  
 Jack Koch KA8JFE 2135 Central Parkway 45214 513=721-1203 Publisher, Keystone Printing Co.

Please send submissions for the *Q-FIVER* (including notice of upgrades & call changes) as well as circulation problems & address changes to Ye Ed. Susie N8CGM. These may be:

- > mailed to or dropped off at 6351 Daleview Rd, Cinti OH 45247
- > telephoned to 513=385-5201 any time (answerer takes up to 4 min. dictation)
- > e-mailed to [n8cgm@arrl.net]

# THE Q-FIVER

(kyoo fi ver) Q: A scale of amateur radio signal readability progressing from 1 (unreadable) to 5 (perfectly readable). "You're Q5" = "Your signal is perfectly readable." (*ARRL Handbook*, 52d ed. 1975)

## *May 2005 Volume 47 Number 5*

### **From the President**

There are many activities upcoming that the club would like your participation - Dayton, Field Day, Local hamfests and other things are happening! Please volunteer some time to OhKyIn to help continue a great showing of the club and its wonderful members. Attendance at the monthly meetings is good but it could always be better -- please come on out if you can.

We continue in our search for a suitable meeting location that meets the needs of the club -- access, location, availability and costs. If you have a suggestion of a place to hold our monthly meetings, please let a board member know -- but also please make sure that the suggestion is actually available.

We will of course continue our work on the repeaters -- slowly but surely we are making progress on all fronts.

73, *Brian K4BR1*

### **Next meeting**

The next club meeting of the OH-KY-IN Amateur Radio Society will feature Jay Slough K4ZLE to talk about the 8th Region QSL Bureau. That club meeting will take place **Tuesday, May 3, 2005** at the Western Hills Church of Christ, located at 5064 Sidney Rd.

To get to the meeting from downtown Cincinnati, go North West on Glenway Ave. to Sidney Road (at the Frisch's Restuarant). Turn left on Sidney and turn right into the parking lot at the next light. Please enter the building through the rear door.

73, *Dale K08725*

### **Phil KG8AP named 2004 Ham of the Year at awards dinner**

(The photo is on the Oh-Ky-In web site, *oh-ky-in.org*, and will not copy for reproduction here. Sorry.)

Phil is the most recent Past President of Oh-Ky-In, has been on the VE team and Education Committee for years, and currently oversees Hamfest progress. An honor well deserved --.Only 26 members and guests attended the dinner at Sorrento's on March 29. All present went home with at least two door prizes, some with three.

Other awards:

Expanding piggy bank for library fines for librarian Jim KC8PRY

Raccoon hand puppet to represent last year's Field Day guest for Judd N8RVR

Little black book for Bruce N8BV

Toy fire truck and barriers, plus January-June fox hunt plaque and Meritorious Service for Brian K4BRI

A sign "Occupancy 20 Hams maximum" for Carol WA8YL's front door

Young Ham of the Year, Emily K4MLE

Youth Achievement Awards, David KC8YTJ and Ben KC8ZLE

First place in CW Proficiency, Nathsan KA3MTT

July-December fox hunt plaque, Bob WA6EZV

Meritorious Service, Rick KD4PYR

A total of 65 certificates for work on committees and projects

### **Minutes of members' meeting, Tuesday, April 5, 2005**

Brian K4BRI called the meeting to order at 7:32 PM with the Pledge of Allegiance and self-introductions. There were about 30 present with one guest, Brad KC8FYZ.

Brag: Big orienteering session over the weekend despite inclement weather in which Dick WB4SUV and Bob WA6EZV did well.

Jim KC8PRY pointed out an article in the April *CQ* about our foxhunters.

Rick KD4PYS announced that there were certificates for 65 members at the awards dinner. He presented Jim KC8PRY with an expanding piggy bank for library fines, Carol WA8YL with a "maximum occupancy" sign for meetings at her house, a meritorious service award for Ev KC8JR for education and youth awards to Ben KC8ZLF and David KC8YTJ. Bob WA6EZV will get a plaque for foxhunting for June-Dec 2004; he gets his life back on May 20 (long hours at work). Rick recognized Phil KG8AP as Ham of the Year and Emily K4MLE as Young Ham of the Year.

In the absence of program speaker Tim Hedrick, the business meeting commenced.

Dick WB4SUV moved to approve the minutes as published in the *Q-Fiver*, Russ WB8ZCC second, motion carried. There are now 125 members. Those who have not paid up were not listed in the member directory and did not get a notice of their April *Q-Fiver* (or hard copy if they don't have e-mail). There are more copies of the directory available.

Treasurer's report: Rick KD4PYR suggested meetings on .67 to eliminate gas costs. The awards dinner actually profited by \$20. All else is about the same, except the check received for \$400-odd for eBay sales.

Bruce N8BV had nothing to report for Silent Keys.

Brian K4BRI reported that the technical committee has accomplished some work and has more to do. He thanked Russ WB8ZCC for bringing in needed connectors. Successful joint work parties have taken place. Last Sunday a dreadful noise was cleaned up. Next technical committee meeting next Tuesday at the south remote, there are some things to do. Ask for directions on .67 if needed. The north remote is ready to go and should be up shortly.

Harry WA8LOJ asked for a copy of the items that were sold on eBay. These were excess from a large purchase of items we never used (the batch that included the Motorola test equipment). Since numbers were never put on what was sold, there is no inventory list.

Phil KG8AP announced another planning meeting for the July 23 Hamfest on April 19 at Carol WA8YL's.

Ev KC8JR reported for classes that they've had 2 meetings with 5 tech, 1 code, 1 general.

Dick WB4SUV referred the fox hunt report to Phil K8AP's Tally Ho writeup in the *Q-Fiver*. Brian K4BRI added that there is usually room for observers to ride along. Dick seeks a fox for this Saturday.

Eric N8YC was not present to report on the DXpedition, but Brian K4BRI announced that there won't be one this year. Try for a real one, maybe to a real island, next year. Lynn WD8JAW was at Santa Rosa

recently and reported it in no shape to accept a DXpedition.  
 Nathan KA3MTT was not present to report on Field Day.  
 Jim KC8PRY said the library is open, with free *QSTs* available.  
 Bruce N8BV brought up the question of when did Tech Talk start and whose idea was it.  
 It began in the late 70s or early 80s, K8SEX was the president. A youth who worked at Milacron, WB8BFS (now WM7D Mark Downing according to qrz.com).  
 Jim KC8PRY said he knows another ham who doesn't understand how to check in to Tech Talk. Bruce said there's a long-standing erroneous feeling that one needs to be an Oh-Ky-In member to check in; that this is not the case is repeated several times each net. Newsline has grown to 28 minutes long; he will start breaking the newscast for more check-ins in the middle.  
 ARPSC: Pete KC8BZM said ARPSC is becoming more involved in preparedness and needs more hams, especially to take the Levels I & II emergency courses (still with refundable tuition). ARPSC meets the first Friday of each month at the sheriff's communications center, will move in the next few months to the emergency center on Bald Knob (Lehman Rd, the old Ch 19 site). New rules encourage active members only; 2 points for a net manager, 1 point for a public service activity. Field Day every other year.  
 QCEN will meet April 15. Flying Pig Marathon still needs more communicators. It's Sunday, May 1; see Pete or Steve N8TFD to sign up. Their May meeting will be the 2d Friday to avoid Dayton. Program will be from Cinergy speakers bureau on electrical line safety.  
 Pete also mentioned that he's seen BPL being put up down to Donlar Ave.  
 Dale KC8HQS has not yet updated the web calebndar and link but will do so tomorrow.  
 Old business:  
 Brian K4BRI said he got 12-14 *Q-Fiver* notifications back for incorrect e-mail addresses.  
 Mike KC8YOM had a suggestion for another meeting location; a building near Mercy Hospital could be

had if we'd move the meetings to Thursdays. A couple other places have been mentioned. It's hoped to have a decision by June.

New business:

Bruce N8BV asked if anyone is actually using the autopatch or their speed dials. New assignments need to be made now. Talk to Bruce to get a number issued.

Susie N8CGM mentioned that Brad WD9HDZ had seen a notice of availability on the White Oak fire tower.

Bruce N8BV mentioned Competition Racing in Lawrenceburg, go-karts inside. A group might want to go try this.

Eric N8YC would have won the \$25 attendance award had he been present. As he was not, it will be \$30 next month.

Judd N8RVR won \$13 in split the pot.

Speaker Tim Hedrick never did arrive.

Pete KC8BZM moved to adjourn at 8:28 PM, George N8FFV second, motion carried.

Respectfully submitted, *Susie Scott N8CGM*, Recording Secretary

**" Tally ho airport! "**

Once again yours truly played the elusive sly fox for our April Foxhunt.

It was a beautiful spring day. Sky conditions were clear. Winds were variable at 3 MPH, relative humidity a comfortable 44%, and the temperature a pleasant 64F.

This month our fox planted himself at Lunken Airport with his trusty mobile rig running 20W FM into a 10 element 2M Yagi (at 8ft AGL, or in this case only 491ft above sea level) pointed due west. This proved to be a worthy location, not only from the standpoint of the terrain and the interesting challenge it offered to our hounds, but also for the interesting sights I was able to take-in from here.

Starting from Mt. Storm Park, here are the stats to sniff me out:

Ernie W8EH & Gerry KD8ASL 9.7 miles 32:15 minutes

Dick WB4SUV & Janie 30.6 miles 63:09 minutes

I would like to remind everyone, that the OH-KY-IN DFers meet the second Saturday of each month at Mt. Storm Park, with the hounds leaving the gate promptly at 10AM. The foxhunting exercise is a fun and exciting way to learn or sharpen your radio direction finding skills. We would be delighted to welcome all who are interested to join us. Looking forward to seeing you at our next event.

73, *Phil KG8AP*, Le Wily Fox

### **Oh-Ky-In Hamfest tickets now available**

\$5 is still the advance sale price for tickets for the July 23 Oh-Ky-In Hamfest. Bruce N8BV, Lynn WD8JAW and Carol WA8YL have them for sale. On or about June 23, the tickets also go on sale at Debcos and R&L. Advance sale tickets bear two chances at a door prize – that's right, double stubs. If you wait til the day of the Hamfest you only get one chance!

**It's Spring! Time for baseball and radio!****FCC ACTION**

We often complain about the apparent slowness of enforcement action by the FCC. These complaints no doubt result from the vast majority of members not being aware of the cumbersome legal hurdles our society has demanded to protect the innocent, and the limited funding for FCC action and staffing. Individually, these issues cause the wheels of regulatory enforcement to turn slowly. Nonetheless, the wheels of the vehicle driven by Riley Hollingsworth continue to move. During recent months, he and his people have issued various forms of citations to a number of power companies that have

been interfering with Amateur Radio reception, various industrial operations whose mistuned equipment has been radiating excessively on our bands, unlicensed operators who have been using 2M HTs to coordinate their hunting expeditions, manufacturers whose equipment is made to generate more power on ham bands than Part 15 allows, and, yes a variety of licensed amateurs who seem to take relish in inappropriate and illegal operations.

Many of the actions of the FCC have been assisted by the ARRL OO Corps. This Corps has often done the initial spade work to identify who, when, where and what. Because this effort most generally is conducted without fanfare, OOs and the FCC often are derided as "do nothings." This is far from the truth, though. These people, whether OOs or FCC staffers, go about their business as unsung heroes.

Remember, if there is a problem with unlicensed operators, illegally-irradiating power lines or equipment, or illegally-operating amateurs in your area, work through the OO Corps and get the issue solved.

You don't have any OOs in your vicinity? Contact your Section OO Coordinator or Section Manager and offer to become an OO. Become part of the resolution. Remember that "It is better to light one little candle than to curse the darkness."

#### REFLECTING

I don't mean the type of reflecting we count on for bouncing signals in Earth-Moon-Earth communication or even the Earth-Ionosphere-Earth-Ionosphere, etc. The reflecting to which I refer is on the past. Even at @\$ years young, I don't dwell much on the past except to try to learn from it. There is too much to do now and in the future. On the other hand it is rather useful to think of where I've been, where I am and where I want to go.

With the above background laid, I will apply reflection to Amateur Radio. On a personal plane, my reflection reminded me I had absolutely no aspiration to become even a little fish in the pool of a small ham club. My objectives changed, though, and I moved up the positions to hold a number of leadership positions in clubs and, surprise of all surprises, in ARRL. I even told one of my friends (an SK now) I had absolutely no aspiration to run for any form of office in the League. This was 100% true at the time, but my interests and objectives changed.

At one time, I told anyone who would listen that DXing may be a nice thing to do, but it offered no particular value to the community. The real game, I said again and again, was "emergency communication." I spent 20 years working as a leader in ARES/ARPS and Civil Defense (now the EMA). But, now, I am a DXer. I still say Emergency Communications is THE most important phase of Amateur Radio, but I've learned it isn't the only thing. So, after redirecting my Amateur Radio career, I hold 5 Band DXCC and am on the list of hams who have earned a DX Challenge plaque. Things change. We do not stay the same year after year.

About DX offering no particular value to the community: The recent VU4 DXpedition has caused me to eat my words about the value of DXing to the community. This DXpedition party was the first to report the devastating tsunami in the Far East. This group as well as other DXers in and out of the stricken area stayed on the air as the only contacts between victimized areas and relief forces for several days after the incident. Thank goodness for DXers!

OK, so what is the point of all this waste of bytes? It is simple. One major fact of life is that nearly each of us goes through changes in interests over the years. As a result, we individuals do not dare to make fun of the interests of anyone else. It just could be that we may see our preferences redirected sometime in the future to the very activity that we deride today. Exercise -- even enjoy -- legitimate differences.

Fine tuning this, don't go around bashing others because they have no desire to communicate beyond the range of VHF and UHF repeaters. They are hams just as much as DXers or public service-oriented folks.

Similarly, don't put Techs down because you have a higher license class; put no code licensees down because you passed 13 or 20 wpm. They are just as much radio amateurs as those of us who became Extras under the 20 wpm requirement. Laws and regulations change. People change. Situations change. *The 2-Fiver, Ok-Ky-In ARS, May 2005*

Rather than dividing the ham ranks into no code vs. coded licensees, or Old Timers vs. newbies, or traffic handlers vs. DXers, ad nauseum, let's pull together in a never-before-seen manner for the good of Amateur Radio.

OK. I'm off my Ivory Soap box.

#### REGULATION BY BANDWIDTH

This concept is still alive and well. The Board of Directors reviewed its status during the January Board meeting and referred it back to the Board's Executive Committee for further work and to be brought back to our July meeting. In the meantime, I've been hearing all sorts of unfounded rumors about this still-developing proposal. These revolve around statements such as: You are trying to do away with (you can fill in this blank with AM, RTTY, DIGITAL, ATV, CW, SSB, etc.).

I hate to go around bursting people's bubbles, but none of this is true. The Board is working diligently to enable our members to have more freedom to experiment without detracting from current operating privileges. To do this requires much thought and considerable time. We want to do it "right" the first time.

#### THIS AND THAT

THE ARRL AMATEUR RADIO SPECTRUM PROTECTION ACT has been introduced to the US House for the current term. This means we will soon want to ask each of our Representatives to cosponsor and vote for the act.

I've received several volunteers who are willing to meet with their Congressmen or their aides "back home." We still need a quite a number of additional volunteers. If you have not yet notified me of your willingness to help, please contact me ASAP with your name, call, address, telephone number, E-mail address, Congressional District and the name of your Congressman. You will not be requested to devote any great amount of time and effort and we will provide you with instructions on making contacts.

ARRL NATIONAL CONVENTION -- ARRL EXPO -- is being held at the Dayton Hamvention(R). Dayton is a "must attend" for many amateurs worldwide. This year, the addition of the ARRL National alongside the Hamvention is a double-must! There will be special activities and presentations throughout the extended weekend. Check out <http://www.arrl.org/announce/nc/2005/> frequently as details are presented. This site also has a link to the Hamvention. ARRL Expo will have a large, special Expo area inside HARA Arena.

Tnx for your support of ARRL, your SM and staff, and of Dick and me. We appreciate this. Moreover, we need it if we are to continue to provide the best leadership for Amateur Radio.

73, *Jim*

**Committee Appointments** would not space properly

### **News of members**

Otto AA8KK was in the hospital for a few days. Should be home by now.  
Our deepest sympathy to the Vicars family on the loss of Tom WA8PRP's Wife and Gregg  
KA8MDQ's Mother. Our thoughts and prayers are with you at this time.  
73, *Carol WA8YL*

### **VE exam opportunities**

**1<sup>st</sup> Saturday each month:** Cincinnati (Hartwell), CRA, at Hartwell Pres. Church. Registration 8:30am;  
walk-in only! All licenses classes. Dale Pritchett, KC8HJL at (513) 769 0789

**2<sup>nd</sup> Saturday each month:** Hamilton (Butler Co.), Butler Co, VHF Association at Joint Vocational School  
Communications Center, 3603 Hamilton-Middletown Rd, (RT4). Registration 8:30am; walk-ins OK. All  
Classes. Ted Wilson, K8TCR (513) 868-7012 Talk-in 146.97

**2<sup>nd</sup> Monday each month:** Kentucky (Edgewood) NKARA, at Turkeyfoot Middle School, 3230 Turkeyfoot  
Rd. Registration 6:00pm. Follow the signs. Pre-registration preferred, walk-ins accepted. John Meyers,  
NB4K, (859) 472-6690. Talk-in 147.255

**Friday, May 20 at 2:30 PM and Saturday, May 21 at 9:30 AM and 2:30 PM** at the Dayton  
Hamvention, all levels. Pre-registration ended April 30; walk-ins accepted while materials last. ARRL/VEC  
Form 605 should be available at the exams. Bring everything listed below and check, money order or cash  
for exam fee.

**Saturday, May28,** 12 noon at Salem Presbyterian Church, corner Mozart & Higbee behind the Harrison-  
Boudinot White Castle. Info: Carol Hugentober WA8YL, 513=661-5323. Talk-in 146.67

**In all cases,** tests require two IDs (preferably one with photo). Bring with you the original, as well as  
photocopy of current license and CSCEs. \$14 is present ARRL/VEC exam fee, exact currency appreciated.

### **Hamfests &c. May 2005**

May 20-22 Dayton Hamvention and ARRL Ntl Convention at Hara Arena, Trotwood OH. Doors open Fri 8  
AM-6 PM, Sat 8 AM-5 PM, Sun 8 AM-1 PM. Advance \$20, bus tickets \$8 for all 3 days at Debco, R&L,  
other locations, \$25 gate; under 13 and students free. Theme "Bringing Hams Together from Around the

World". Exhibitors, vendors, acres of fleas, forums, ARRL Expo 2005, VE sessions (see *VE exam opportunities* above), FCC Commercial License testing by NARTE (\$40, 800-89-NARTE, [www.narte.org](http://www.narte.org)), Wouff Honmg. Talk-in 146.94, 223.94, 442.1. Info: Gary Des Combes N8EMO, 937=276-6930, [info@hamvention.org](mailto:info@hamvention.org), [www.hamvention.org](http://www.hamvention.org)

Oh-Ky-In is in spaces 4007-4008. Please sign up to take an hour or so at the club meeting. Judd N8RVR will not be there Sun, so volunteers are especially needed then. Also someone to bring the tent back for our Hamfest.
