Brunch Bunch

by Bruce Vanselow N8BV

The next Brunch Bunch will be held Saturday, June 8th, at 1pm. The location for June is Skyline Chili, the Monfort Heights location. This Skyline Chili restaurant is located at 5444 North Bend Road, 45247. This location is just a short distance from the North Bend Road exit off I-74.

“What should I order at Skyline?”

“Our two most popular menu items are our 3-Way Chili and Cheese Coney. One taste and you’ll know why they have been our best sellers since 1949. Feeling a bit more adventurous? Try a 4-Way with beans or onions, or a 5-way with beans AND onions.”

For a look at the menu as well as a map: <https://locations.skylinechili.com/skyline-chili-71cea4d240aa>

Remember that the Brunch Bunch always meets the second Saturday of every month at 1pm at a location to be announced each month. If you can’t join us this month, maybe you’ll be available to join us in the months ahead.

As always I’m looking for suggestions on what restaurant you think might be a good place for the Brunch Bunch to visit in the future.

73, Bruce N8BV

Newcomers Net

The Newcomers net continues, with great participation. Robert K4PKM holds the net each **first** and **third** Sunday of the month at 7:00 PM on the 146.67 repeater. The net is open to all licensed amateur radio operators and those interested in becoming licensed are encouraged to listen in as well. The net focuses on topics of interest to newer hams, but participation by experienced hams is also encouraged. If you haven’t already, check it out soon! The topic for June 2nd will be “ARRL Field Day Preparation” and June 14th will be “All About Feedlines.”

Meeting Location Update

Consistent with the discussion at the May club meeting, the OH-KY-IN club meetings will be moving! Starting with our **July** meeting, our in-person meetings will be held at the Village of Arlington Heights Town Hall, located at 601 Elliott Ave., Cincinnati, Ohio 45215 just a couple of minutes off of I-75 at the Galbraith Road exit. This new meeting location **is fully accessible**, with an elevator and no steps to navigate. Additional instructions will be provided later regarding how to enter the building. There is a parking lot adjacent to the building which will accommodate some of our members and there is ample on-street parking around the building.

We will continue to offer Zoom as well, with no changes expected there.

Please note that like our pre-COVID meeting location in St. Bernard, this is a polling location, which means that we will not have use of this facility on election days. We will announce plans for those dates later.

OH-KY-IN would like to thank the Village of Arlington Heights for the use of their facility!

Newcomers Net Recordings — Interested?

As a bit of an experiment, a recording was made of the April 21st Newcomers Net, which included a presentation by Steve Weeks AA8SW on some of the technical aspects of reactance and resonance and antenna-related considerations presented by Robert Gulley K4PKM.

You can access this recording here:

Let us know if you would like future editions of this net to be recorded and available for later review.

The Reading & Radio Ranch: Notes from the Library

by Justin Patrick Moore, KE8COY

This month brings us closer to having a new book by your friendly club librarian added to the club's stacks of books. *The Radio Phonics Laboratory: Telecommunications, Speech Synthesis, and the Birth of Electronic Music* is out on June 14th. I want to say thank you to everyone who read the initial articles that became the seeds for the book that I published in the Q-Fiver starting back in 2016. New club members will now get the chance to catch it. The material has all been heavily revised and features additional research. I think that if you are interested in any of the following topics: radio, the telephone system, Bell Labs, speech research and speech synthesis, and electronic music, you will find something you enjoy in the book.

The story roughly spans the 1880s to the early 1980s, and is split into three parts: Telemusik explores early electronic music instruments from oscillators used to play songs on telegraph wires, to the theremin, and Lee De Forest's Audion Piano, among others. The second part, The Voice of the Bell, explores the speech research done on vocoders and the like at Bell Labs that eventually led to the creation of the computer program MUSIC, one of the first of its kind, and the first widespread computer music software. Another aspect of this was the development of Linear Predictive Coding, a type of vocoding used now in our cellphones and DMR radios but also employed to make avant-garde computer music by adventurous composers, and also, love it or hate it, autotune. The third part, We Also Have Sound Houses, explores the close relationship between radio stations and the creation of the first electronic music studios at places such as the Radio Television de France, the West Deutsch Rundfunk, Nippon Hoso Kyokai, the BBC, and the alliance between RCA corporation and Columbia and Princeton Universities. There is also the development of FM Synthesis, which does in the audio domain what frequency modulation had done before in the radio domain. All of this and more awaits you as you open the door to the Radio Phonics Laboratory.

I would like to take this opportunity to thank all the club members who supported my work and my publisher by pre-ordering directly from Velocity Press. It will be available in the United States hopefully by the end of the month from places like Bookshop.org, that one big online place named after a jungle down in South America, and fine bookstores everywhere by July. By the time this issue is published, some boxes of it will probably be on a boat in the ocean headed to the distributor. I'll also have some copies for sale directly from me.

I'll be donating a copy to the club, but if you'd like to order a copy yourself, I sure wouldn't complain. Thanks!

And always Remember: Keep Your Batteries Charged & Your Aerials Up!

Flying Pig 2024 Report

by Kevin Tribbe, W8SM

The Cincinnati Ohio Flying Pig marathon was voted the best marathon in the US for 2024. The event generates up to \$22 million for the greater Cincinnati area. The 26th annual Flying Pig was held May 3-5 which included 10 separate races with over 38,000 runners.

Over 60 amateur radio operators from multiple ham groups in the region provided auxiliary communications between the course, race directors and the event operations center. Challenges this year included a three-hour delay to the 5K run due to weather and a mass casualty declaration on Sunday caused by runner medical issues due to excessive heat and humidity. Hamilton County ARES lead the net control operation providing logistics support, runner status, runner issues, and overall status of the race. Recognition can be attributed to dedicated seasoned operators using well defined processes and real time race data tracking. This year's improvement included a new web-based application developed by Ryan Owens (AC8UJ) plotting progress of lead runners and more importantly the progress of the sweep bus showing the tail end of the race tracked with real time APRS data.

Bylaws Update News

Some of you may recall that a few years ago, we attempted to update the bylaws of the club but failed to achieve quorum to do so. After further consideration and much discussion, the Board has decided to once again ask the club to consider amending our bylaws to modernize them and align them with the standards of modern organizations. At the April Board meeting, the board voted to present an amended set of bylaws to the club and ask the club to vote on them at the June meeting. Presented below are the current bylaws, as adopted June 5th, 2012 followed by the proposed amended bylaws for your consideration. The board believes that the proposed bylaws are in the best interest of the club. You may direct questions to Ryan AC8UJ at president@ohkyin.org or ac8uj@arrrl.net.

B. The dues (which may vary depending on categories set by the Board) shall be determined by the Board of Directors from time to time, and shall be payable to the Treasurer during the month of January or at such other time as the Board of Directors may approve. Dues unpaid three months after the due date shall result in automatic termination of membership.

F. Board meetings are open to members, so the date and location of Board meetings (other than confidential meetings as provided below) must be distributed to the membership in advance of each meeting. However, the Board may conduct a confidential special meeting or executive session at a regular meeting to discuss sensitive topics such as actual or potential litigation, contract negotiations, and other legal or personnel matters.

Members may vote by proxy if a proper written proxy is provided to the Secretary at the meeting.

B. A special membership meeting may be called by the President, or by the Vice President in the President's absence, at a reasonable time and place, with notice as provided in Article V.D. C. 20% of the Society's membership may call a special meeting of the membership at a reasonable time and place. Such notice of a special meeting shall set forth the time and place of such meeting and shall be valid if given as stated in the preceding sentence, whether or not actually received. The attendance of any member at any meeting without protest at the commencement of the meeting shall be deemed to be a waiver of notice of the meeting.

It shall be published monthly (with any exceptions approved by the Board of Directors) and distributed to all members in good standing who have furnished an electronic mail address for that purpose. The Editor shall be appointed by the President. It is the responsibility of the Editor to maintain the editorial policy of the publication consistent with the policies and practices of the Society.

Did you know that OH-KY-IN ARS has been recognized by the Internal Revenue Service as a 501(c)(3) charitable organization? That means anyone who itemizes on their Federal return can take a charitable deduction for a contribution to OH-KY-IN, as long as it qualifies under the general rules applicable to all other charitable contributions (for example, the contribution must be in cash, or other property which the organization has agreed to accept; the value of volunteered services is not deductible). Membership dues, such as the cost of a life membership, may even be deductible; consult your own tax advisor for details if considering that. Posthumous donations by Will or by naming the organization as beneficiary of a financial account are also welcome.
